EDUCATION

THE HONG KONG UNIVERSITY OF SCIENCE & TECHNOLOGY | Hong Kong, China

Bachelor of Science in Quantitative Social Analysis (Expected Graduation: 2028) (Sept 2026 – Present)

Bachelor of Business Administration in Operations Management (Internal Transfer) (Sept 2024 – Aug 2026)

- Major-CGA: 3.2/4.3
- Honors & Awards: Awarded the University's Scholarship Scheme for Continuing Undergraduate Students (2025/2026)
- Served as Data Analyst at Be Our Guest @HKUST: Maintained and optimized Excel/Google Sheets databases to track operations, improving data retrieval efficiency for the organization.
- Participated in the HKUST Student Ambassador program to support university outreach and campus events.

EXPERIENCE

THE HONG KONG UNIVERSITY OF SCIENCE & TECHNOLOGY (ISOM DEPARTMENT) | Hong Kong, China

Data Engineer Assistant (Quantitative Research) (May 2025 – Present)

- Developed an automated end-to-end ETL data pipeline for Mac & Linux using Python (Selenium) and the Gmail API to automate tick-by-tick stock data extraction, reducing processing time from 2 weeks to 24 hours.
- Built an interactive R Shiny data dashboard to filter financial data, improve data accessibility for stakeholders, and exchange codes, and translated legacy Stata/MATLAB scripts into R to optimize faculty research workflows.
- Programmed data-cleaning scripts to automatically parse, label, and merge monthly data fragments into comprehensive, multi-year datasets.
- Built an HTML website for an international econometrics conference and managed attendee operations using Qualtrics to streamline registrations.

USting | Hong Kong, China

Business Analyst (Sept 2026 – Present)

- Upcoming role at the USting Business Analytics Team, largely focusing on consumer's behavioral data and business performance.
- Applying machine learning models to large-scale consumer survey datasets for the USting team to analyze behavioral patterns and evaluate business performance metrics.
- Developing predictive models in Excel and engineer interactive data dashboards to deliver scannable business intelligence for cross-team stakeholders.
